

IFFA

FABBRI GROUP INVITES YOU TO DISCOVER EXCELLENCE IN MEAT & ALTERNATIVE PROTEINS PACKAGING!

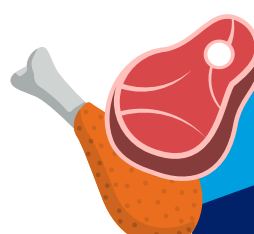

IFFA 2025 is where **Fabbri Group's innovative packaging solutions** meet the future of meat and alternative proteins. Visit us at **stand no. C80, hall 12.1 (first floor)**, and see how our machines and films can support your business:

- **Wrappers and tray-sealers:** whether it's **stretch** or **tray-sealing**, our technologies help maintain and protect product **quality** and **freshness** with perfect **shelf** presentation
- **Plain & printed films for meat and more:** learn how there is the right packaging material for every product - whether sliced, portioned, oil-cured, processed... - to **keep quality**, and **improve shelf-life and visual appeal**. The Fabbri films are available in **traditional, biobased, and compostable** versions, in **plain** or **printed** form, according to the different applications
- **Packaging at its best:** **all the options** you need to integrate and accessorize **machines and lines** to achieve **high productivity**
- **Service:** through our regular or customized service contracts, we ensure the best customer experience by offering standard machine **maintenance**, extraordinary technical **support**, spare parts **supply**, and technical **trainings**, all backed by a **global network** of experienced and multilingual teams
- **Personalized demos:** join our custom demonstrations and discover how **our technologies** can make a difference for your business!
